

# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

## Friendly Village of Orangewood MHP Has Levels of Arsenic Above Drinking Water Standards

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we did (are doing) to correct this situation. We routinely monitor for the presence of drinking water contaminants. On 2/9/22 we received notice that the sample collected on 1/31/22 showed that our system exceeds the standard, or maximum contaminant level (MCL), for Arsenic. The standard for Arsenic is 0.010mg/L. The average level of Arsenic over the last year has been 0.0125mg/.

### What should I do?

- There is nothing you need to do. **You do not need to** boil your **water** or take other corrective actions. However, if you have specific health concerns, consult your doctor.
- If you have a severely compromised immune system, have an infant, are pregnant, or are elderly, you may be at increased risk and should seek advice from your health care providers about drinking this water.

### What does this mean?

This is not an emergency. If it had been, you would have been notified within 24 hours. However, some people who drink water containing arsenic in excess of the MCL over many years could experience skin damage or problems with their circulatory system and may have an increased risk of getting cancer.

### What is being done?

On March 14, 2022 the system switched over to the city of Phoenix water system until the WTS Plant media can be changed. There may be a delay in the media replacement since it is on back order. Once the media is changed and the WTS Plant is running again the water will be retested for Arsenic.

For more information, please contact Teresa 602-703-4340.

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.\**
