

UST SUSPECTED RELEASE PROCESS

(For suspected releases based on equipment-related issues)

If a suspected release is discovered, the process is outlined below:

Note: In accordance with Arizona Revised Statutes § 49-1001(18), a suspected release is not required to be reported if:

- 1) System equipment is found to be defective but not leaking and is repaired or replaced immediately, or
- 2) The monitoring device is found to be defective and is immediately repaired, recalibrated or replaced and additional monitoring data do not confirm the initial result, or
- 3) For inventory control, a second month of inventory reconciliation data does not confirm the initial result.
