

TAKING PART, IDLING SMART

Be a **Champion** for our
Idle Reduction Program

For a fleet of 50 buses, reducing idling by 10 minutes a day can prevent nearly 100 pounds of harmful emissions during the school year

Reducing idling can:

- Make the air cleaner in our community.
- Reduce wear-and-tear on our school bus engine.
- *Help everyone breathe easier!*

Help even more!

- Ask friends and family to reduce idling their vehicles
- Suggest best practices to your supervisor
- Share best practices with other bus drivers and school districts
