IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
LAGOON ESTATES WC UNIT 2 PWS #AZ0408046
Has Levels of Arsenic Above Drinking Water Standards

Our water system LAGOON ESTATES WC UNIT 2 recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we did (are doing) to correct this situation.

We routinely monitor the presence of drinking water contaminants. Testing results we received on 02/28/2022 and 03/14/2022 show that our system exceeds the standard, or maximum contaminant level (MCL), for arsenic. The standard for arsenic is 10 parts per billion (ppb). The average level of arsenic from April 2021 – March 2022 has been 12 ppb.

What should I do?
You do not need to use an alternative (e.g. bottled) water supply. However, if you have specific health concerns, consult your doctor.

What does this mean?
This is not an immediate risk. If it had been you would have been notified immediately. Some people who drink water containing arsenic in excess of the MCL over many years could experience skin damage or problems with circulatory system, and many have an increased risk of getting cancer.

What is being done?
Lagoon Estates Water Company along with the Arizona Department of Environmental Quality, Technical Assistance Division has completed a study of Unit #2 Water System, and is now in the 60% engineering stages of a Water Quality Improvement Plan.

To remedy fluctuating and rising arsenic levels. The plan is as follows:
The project includes consolidating water systems with a well site that has an arsenic level below the 10.0 MCL by means of a water transmission line. This project aims to resolve the current arsenic exceedances at Unit 2 well site. Our goal is to begin construction during the 3rd and 4th quarter of 2022, and will notify you of any public meetings and information in regards to construction as it proceeds.

For more information, please contact Karen Brereton at 928-768-3384 or Lagoon Estates Water Co., P.O. Box 5581, Mohave Valley, AZ 86440.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
