Are any sources associated to an EPDS in the application newly activated within the past 3 monitoring periods?

- **YES**
  - **DENIED**
  - **NO**
    - If any sources were recently re-activated, were any IOC samples missed?
      - **NO OR N/A**
      - **NO**
        - **NO**
        - **NO**
      - **YES**
        - **APPROVE**
        - **WAIVER**
    - **YES**
      - **NO**
        - **NO**
        - **NO**
      - **YES**
        - Were any Detects >75% of the MCL?
          - **NO**
            - **NO**
              - **NO**
              - **NO**
            - **YES**
              - Are any contaminants w/detects above 75% of the MCL installing treatment for that contaminant?
                - **YES**
                  - **NO**
                    - **NO**
                    - **NO**
                - **NO**
                  - **YES**
One of the following options is correct:

- Contaminants with treatment stays on Quarterly
- Sodium stays on 1RT/3Y monitoring period
