

INSTRUCTIONS FOR REGISTRATION OF:

- **OUTDOOR USED TIRE SITES
(100 OR MORE USED TIRES)**
- **WASTE TIRE COLLECTION SITES
(OVER 500 WASTE TIRES)**

INSTRUCTIONS

New rules that are effective July 1, 2012, require the owner or operator of a site that stores 100 or more used tires outdoors or a site that stores over 500 but less than 5,000 waste tires to register with the Arizona Department of Environmental Quality (ADEQ) and submit to the Department specific information about the site. Additionally, the rules require the payment of a registration fee and certification that the site complies with state statutes and rules governing that type of site¹.

Outdoor used tire sites storing 100 or more used tires on any day and waste tire collection sites that store over 500 but less than 5,000 waste tires on any day are required to comply with registration requirements. The attached registration form must be submitted for review and approval by ADEQ.

The registration form requires the following:

- Applicant and site identification,
- Key contact information,
- Tire storage information, and
- A signed certification statement that states the site is in compliance with items as required by Arizona state law.

Note Regarding Waste and Used Tires: This application form is for the registration of an outdoor used tire site storing 100 or more used tires or the registration of a waste tire collection site (WTCS) storing greater than 500 but less than 5,000 waste tires on-site on any day. Authorization for a facility to store 5,000 or more waste tires on any day, if not required to obtain plan approval, must be obtained by completing a *Registration for Solid Waste Facilities Requiring Self-Certification* form and paying the appropriate fee. A tire site/facility that must register under more than one program is only subject to one fee, which will be the greater of the two fees.²

- A “used tire” is any tire that has been used for more than one day on a motor vehicle.³
- “Outdoors” means other than inside a building with a weatherproof roof.⁴
- A “waste tire” means a motor vehicle tire that is no longer suitable for its original intended purpose because of wear, damage, improper repair or manufacturer’s recall.⁵
 - “Damage” means any cracking, bubbling, cutting, chunking or separation of the tire sidewall or tread, including exposed body ply or belt material, or any visible deterioration of the tire bead or inner liner.⁶
 - “Improper repair” means any puncture repair of damage larger than one-fourth of an inch, any puncture repair to a tire sidewall, the tread shoulder or belt edge area, or a puncture repair that has not been both sealed or patched on the inside and repaired with a cured rubber stem through to the outside.⁷
 - “Wear” means the reduction of the major groove depth of the tire to two thirty-seconds of an inch.⁸
- A “waste tire collection site” means a site where waste tires are collected before being offered for recycling or reuse and where more than 500 tires are kept on-site on any day.⁹

Pursuant to Arizona Revised Statutes (A.R.S. § 41-1030):

- (1) ADEQ shall not base a licensing decision, in whole or in part, on a requirement or condition not specifically authorized by statute or rule. General authority in a statute does not authorize a requirement or condition unless a rule is made pursuant to it that specifically authorizes the requirement or condition.
- (2) Prohibited licensing decisions may be challenged in a private civil action. Relief may be awarded to the prevailing party against ADEQ, including reasonable attorney fees, damages, and all fees associated with the license application.
- (3) ADEQ employees may not intentionally or knowingly violate the requirement for specific licensing authority. Violation is cause for disciplinary action or dismissal, pursuant to ADEQ's adopted personnel policy. ADEQ employees are still afforded the immunity in A.R.S. §§ 12-821.01 and 12-820.02.
