Mobile Home Park

- Brought to ADEQ's attention through a complaint
- Issues with septic system and drinking water
- Pulled together multiple parties to problem solve short- and long-term solutions, with same goal to solve the issue.
- Resolution: Owner installed new septic system until municipality can work with funding organization and residents to hook up area to municipal sewer. Drinking Water services reestablished.

Rural Water Infrastructure Committee (RWIC) www.rwic.net

- Partnership of various federal and state agencies who provide loans, grants and technical assistance for water and wastewater infrastructure to Arizona's rural communities.
- Funding and Technical Assistance Resource Matrix
- Project Information Form
- Community Liaisons can help you get in touch with RWIC.

Welcome to the Rural Water Infrastructure Committee Website

The Arizona Rural Water Infrastructure Committee (RWIC) is a partnership of various federal and state agencies who provide loans, grants and technical assistance to Arizona's rural communities.

Our mission is to serve as a "One-Stop Shop" for rural communities with a population of less than 10,000. We seek to create a sustainable organization of funders and technical assistance providers who partner to meet the needs of small drinking water and wastewater systems throughout Arizona.

RWIC OFFERS

- Affordable funding solutions
- Technical assistance
- Water/wastewater infrastructure needs
- Water quality compliance
- Water quantity problems

If you need resources for funding your drinking water or wastewater project, look no further. Need technical assistance or have a water quality compliance issue... RWIC partners can help!

GET CONNECTED WITH RWIC

- Fill out a Project Information Form
- Attend a RWIC meeting
- Contact Garrett Corral, RWIC Coordinator

RWIC is a central hub for funding opportunities and events related to water infrastructure, and for the drinking water and wastewater community to share ideas, ask questions and get the information needed to facilitate water infrastructure projects.
