

## SECTION 4. P2 Performance Goal (A.R.S. §49-963-J.4)

One Sheet for each Goal

Company Name:

P2 ID #:

1. Goal Statement: <i>Ideally goal statements should be in the form (Action Verb) + (Target chemical, emission, or waste stream) used for/in (Process) by X%. Use action verbs such as Reduce or Eliminate. E g Reduce chromium used in plating process by 10%</i>	2. Scheduled Completion Date (Mm/Dd/Year)	3. Completion Status: OS=On Schedule DR=Dropped D=Delayed C=Completed (Choose "OS" if this is new goal)	4. (a) Name of Toxic Substance and/or Waste stream Include (b) CAS #; and (c) RCRA Waste Code #	5. Is the toxic substance or waste stream in item # 4 a Volatile Organic Chemical (VOC), Ozone Depleting Chemical (ODC), "Both" or "NA"
Goal # Goal Statement:	_____	C OS D DR	a b c	VOC ODC BOTH NA

6. If this goal has been delayed or dropped (Box 3), provide an explanation here. Include a new estimated completion date in Box 2 if the goal has been delayed.

7. Actions Needed to Implement the Goal: (If a goal extends more than two years, include a list by year of the activities to be completed)	8. Baseline Year *	9. Baseline Quantity (amount in baseline year)**	10. How much was reduced or eliminated	11. Year Box # 10 was measured	12. How much money (US \$) was saved by this goal?	13. Reduction quantity is adjusted for production?	14. Production ratio (only if Box # 13 is Yes)
Actions we will take to implement this goal are:		Pounds Gallons KWH Therms No Measure	Pounds Gallons KWH Therms No Measure		\$	Yes No	

\* The baseline year is the year prior to tracking any reductions (example: if you want to start tracking your goal in 2016, then 2015 would be the baseline year.)

\*\* If units are not measured in any of the check box choices or cannot be converted to one of them, please check "No Measure".  
If this is a New Goal, Boxes 10 – 14 will be left blank.
