Q. EXPOSURE INFORMATION..... 1

Q. EXPOSURE INFORMATION

A comprehensive review has been completed of the proposed site operations. Waste onsite will be managed and treated in containers only and be disposed of offsite by a licensed treatment, storage, and disposal facility. Waste will not be managed or treated in surface impoundments or land disposal units. As such, exposure information under the Code of Federal Regulations (CFR), 40 CFR 270.10(j), is not required. A copy of the proposed process figure for processing waste in containers is provided in **Appendix D.1.1**.
