

**PROPOSED ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM (AZPDES)
RENEWAL PERMIT**

Pursuant to the Clean Water Act and in accordance with Arizona Administrative Code (A.A.C.) R18-9-A907, the Director of the Arizona Department of Environmental Quality (ADEQ) proposes to issue an Arizona Pollutant Discharge Elimination System (AZPDES) Permit to discharge pollutants to Waters of the United States to the following applicant, subject to certain effluent limitations and special conditions:

AZPDES Permit No. AZ0025798
Frito-Lay, Inc.
1450 West Maricopa Highway
Casa Grande, Arizona 85222

Public Notice No. 19-14
Published on 9/19/2019
Published in the Arizona Business Gazette

Frito-Lay, Inc. applied for a renewal AZPDES permit for the proposed discharge of up to 0.69 million gallons per day (mgd) of treated process wastewater from chip manufacturing from the Frito-Lay Casa Grande Facility. The facility discharges to the St. Carlos Irrigation District canal which directly enters an unnamed wash, tributary to the North Branch of the Santa Cruz in the Santa Cruz River Basin in Township 6 S, Range 5 E, Section 14, in Pinal County, Arizona. The Frito-Lay Casa Grande Facility pre-treats its process wastewater by screening to remove large solids and then discharges to a transfer sump; solids generated from the pretreatment screening process are hauled off site. Oily wastewater from the fryer boilouts flows to the oil/water separator, where a skimmer belt removes oil, and then sends to the transfer sump. Starch water from the potato slice washer overflow is treated by a starch removal system. Food-grade defoamer, such as Hydrite Chemical Company's Suppressor 3579S, is used to control the foam during starch recovery process. The clarified low starch wastewater is then discharged to the transfer sump. This wastewater can also be recycled into the manufacturing process as well as agricultural irrigation.

All on-site sanitary wastewater and the LPRO reject stream is discharged to the City of Casa Grande Wastewater Treatment Plant via sewer line.

The permit and fact sheet may be viewed online at <http://www.azdeq.gov/notices> by typing the permit number in the "Keywords" search box. The public notice and related documentation also are available for public review, Monday through Friday, 8:30 a.m. to 4:30 p.m., at the [ADEQ Records Center](#), 1110 W. Washington St., Phoenix, Arizona, 85007. In Phoenix, please call (602) 771-4380 or e-mail recordscenter@azdeq.gov 24 hours in advance to schedule an appointment to review the file.

Persons may submit comments or request a public hearing on the proposed action in writing, to Jessica Kohls, Arizona Department of Environmental Quality, Water Quality Division, 1110 W. Washington St., Phoenix, Arizona 85007, or electronically to kohls.jessica@azdeq.gov. All written comments received by ADEQ by the close of business on the date 30 days after publication of this notice will be considered in the final permit decision. A public hearing request must be in writing and must include the reasons for such request. If there is a significant degree of public interest, the Director will hold a hearing in accordance with A.A.C. R18-9-A908(B).
