The Arizona Department of Transportation (ADOT) applied for a renewal AZPDES permit for the proposed discharge of pollutants to Waters of the United States from the ADOT Phase I Municipal Separate Storm Sewer System (MS4) in Arizona. The MS4 is a publicly owned system of conveyances that collects and conveys stormwater and discharges directly to waters of the United States. The permit requires ADOT to continue to implement and maintain a Stormwater Management Program designed to reduce the discharge of pollutants to the maximum extent practicable. The permit establishes measurable criteria to assess the efficacy of control measure design and implementation.

The permit and fact sheet may be viewed online at <https://azdeq.gov/PublicNotices> by typing the permit number in the "Keywords" search box. The public notice and related documentation also are available for public review, Monday through Friday, 8:30 a.m. to 4:30 p.m., at the [ADEQ Records Center](#), 1110 W.
