

**NOTICE OF AVAILABILITY
EAST CENTRAL PHOENIX
40th STREET AND INDIAN SCHOOL ROAD
WATER QUALITY ASSURANCE REVOLVING FUND (WQARF) SITE
FEASIBILITY STUDY (FS) AND REMOVAL FROM WQARF REGISTRY**

The Arizona Department of Environmental Quality (ADEQ) has completed the feasibility study (FS) for the East Central Phoenix (ECP) 40th Street and Indian School Road Water Quality Assurance Revolving Fund (WQARF) site (Site) in Phoenix, Arizona. A FS is conducted to identify a reference remedy and alternative remedies that appear to be capable of achieving established remedial objectives and to evaluate them based on the comparison criteria to select a remedy. However, identification and screening of remedial technologies and alternatives are not necessary because groundwater at the Site no longer exceeds the Arizona Aquifer Water Quality Standard (AWQS) of 5 micrograms per Liter ($\mu\text{g/L}$) for tetrachloroethene (PCE).

Pursuant to A.R.S. § 49-287.01(K), ADEQ made a determination that no further remedial action is necessary at the Site and has removed the Site from the WQARF Registry. The basis for this determination is contained within the FS.

The Site consists of a plume located in Phoenix, Arizona. The plume is bounded approximately by Devonshire Avenue to the north, East Picadilly Road to the south, 40th Street to the east, and 38th Place to the west. Contaminants of concern at the site are PCE.

The FS and other Site related information is available online at: <http://www.azdeq.gov/WQARF-Registry/page/0/1>, and at the ADEQ Records Center, 1110 W. Washington St., Phoenix, (602) 771-4380, or (800) 234-5677, ext. 6027714380; please call for hours of operation and to schedule an appointment.

Dated this 15 day of June 2017
