

**NOTICE OF REMOVAL FROM REGISTRY
WEST CENTRAL PHOENIX WEST GRAND AVENUE
WATER QUALITY ASSURANCE REVOLVING FUND (WQARF) SITE**

Pursuant to Arizona Revised Statutes § 49-287.01(K), the Arizona Department of Environmental Quality (ADEQ) has made a determination that no further remedial action is necessary at the West Central Phoenix (WCP) West Grand Avenue (WGA) Water Quality Assurance Revolving Fund (WQARF) Site in Phoenix, Arizona (“Site”) and has removed the Site from the WQARF Registry. ADEQ has prepared a record of decision (ROD) closeout report which contains the basis for why continued implementation of the ROD is no longer necessary.

The WCP WGA WQARF Site consisted of a plume located in Phoenix, Arizona. The plume boundaries were defined by the areal extent of the former trichloroethene (TCE) groundwater plume, which was bounded approximately by Osborn Road to the north, Earll Drive to the south, 33rd Avenue to the east and 35th Avenue to the west. The Site boundaries provide the estimated extent of previously known contamination where concentrations of TCE in the groundwater were greater than the Aquifer Water Quality Standard (AWQS) of 5 micrograms per Liter ($\mu\text{g/L}$). The Site was added to the WQARF Registry in April, 1998.

A copy of the ROD closeout report and other Site related information is available online at <http://www.azdeq.gov/WQARF-Registry/page/0/1> and at the ADEQ Records Center, 1110 W. Washington Street in Phoenix, (602) 771-4380, or 1 (800) 234-5677, ext. 6027714380; please call for hours of operation and to schedule an appointment.

Dated this 15th day of June 2017
