**CLASS A**

Individuals have primary management responsibility for the operation, maintenance, and recordkeeping of the facility. Operator training must include:

- Notification (ARS § 49-1002)
- Release detection (ARS § 49-1003)
- Reporting requirements (ARS § 49-1004)
- Financial responsibility (ARS § 49-1006)
- UST Closure (ARS § 49-1008)
- UST performance (ARS § 49-1009)
- Delivery prohibition (ARS § 49-1023)
- Training requirements (ARS § 49-1083)

**CLASS B**

Individuals have primary management responsibility for the operation, maintenance, and recordkeeping of the facility. Operator training must include:

- Release detection (ARS § 49-1003)
- Reporting requirements (ARS § 49-1004)
- UST performance (ARS § 49-1009)
- Delivery prohibition (ARS § 49-1023)
- The training requirements for Class C individuals (ARS § 49-1083)

**CLASS C**

Individuals have daily responsibility for the initial response to an alarm or other indication of an emergency caused by a release or suspected release. Operator training must include:

- Initial response procedures to an alarm or other indication of a UST release-related emergency at the facility, including procedures for contacting a Class A or Class B individual and any emergency responder.

Pursuant to ARS § 49-1083(F), the operator training must be in a format approved by ADEQ. Operator training courses that meet all requirements specified in ARS § 49-1083 are approved in the following formats:

- Distance learning/internet courses
- On-site courses
- Classroom/conference style courses

Documentation that the operator training requirements of ARS § 49-1083 have been met for each trained individual must be maintained for a period of at least three years and must be available for inspection by ADEQ upon request.

Operator training is valid for up to three years unless re-training is required in response to non-compliance and in accordance with ARS § 49-1083(D).
