Re: Final Invitation for West Van Buren WQARF Site Regional Remedy

Dear Sir or Madam:

Notwithstanding previous communications, the State of Arizona will no longer accept delays at the West Van Buren Water Quality Assurance Revolving Fund Site (WVB Site). This letter is the final invitation for involved parties to collaborate, reach consensus, and propose a regional groundwater remedy at the WVB Site.

We invite parties to propose a consensus remedial action plan that is comprehensive and covers all activities necessary to conduct a final regional remedy for the WVB Site, including but not limited to, a commitment to secure necessary permits and approvals from the State. We also request that this occur expeditiously.

If this is not acceptable to the parties, or if parties continue to delay, the State of Arizona will request that the United States Environmental Protection Agency evaluate the WVB Site for inclusion on the National Priorities List.

Until further notice, please direct all questions to me at (602) 771-2203.

Sincerely,

Misael Cabrera, P.E.
Director
