

**NOTICE OF 45-DAY PUBLIC COMMENT PERIOD
FORMER CAPITOL CASTINGS FACILITY
VOLUNTARY REMEDIATION PROGRAM SITE
REQUEST FOR NO FURTHER ACTION DETERMINATION**

Pursuant to Arizona Revised Statute §49-181(A), Victoria Technology, Inc. is requesting a No Further Action (NFA) determination from the Arizona Department of Environmental Quality (ADEQ) for a portion of the property located at 5857 South Kyrene Road (the Site) in Tempe, Arizona. The Site is currently managed under the ADEQ Voluntary Remediation Program (VRP) (Site Code 504426-00). Historically the Site has been operated as a metals castings foundry. A leaking underground storage tank (LUST) was identified and removed in 1989. After the tanks were removed, remediation of the impacted groundwater was conducted under the oversight of the ADEQ. A groundwater closure investigation was completed in 2014 and revised in 2018, which determined that remaining groundwater plume is limited to a small area within the facility, undergoing natural attenuation, and the residual LUST-affected groundwater poses no significant threat to human health, water supply wells, or the environment.

The NFA Report is available online at <http://www.azdeq.gov/notices>, and at the ADEQ Records Center, 1110 W. Washington St., Phoenix, AZ (602) 771-4380, or (800) 234-5677, ext. 602-771-4380; please call for hours of operation and to schedule an appointment.
