

RECYCLING TIPS

EDUCATE, DON'T CONTAMINATE!

PIZZA & FOOD BOXES

Pizza boxes are made from corrugated cardboard, which is recyclable except for any parts stained with food and grease. Since the paper fibers aren't separable from oils during the pulping process, these grease-stained parts of food containers should simply be removed so you can recycle the rest.

1

Tear or cut off the box lid...

2

Throw the greasy bottom away...

3

Recycle the rest!
