FINAL REMEDIAL INVESTIGATION (RI) REPORT
FEASIBILITY STUDY (FS) WORK PLAN**

The Arizona Department of Environmental Quality (ADEQ) has completed the following two reports for the East Central Phoenix (ECP) 24th Street and Grand Canal and 32nd Street and Indian School Road Water Quality Assurance Revolving Fund (WQARF) sites located in Maricopa County, Arizona:

1. The final remedial investigation (RI) report [Arizona Administrative Code R18-16-406(J)]. An RI is conducted to document the nature and extent of the contamination and the sources thereof; identify current and potential impacts to public health, welfare, and the environment; identify current and reasonably foreseeable uses of land and waters of the state; and obtain and evaluate any other information necessary for identification and comparison of alternative remedial actions. The final RI report includes the final remedial objectives report and responsiveness summaries regarding comments, issues and concerns raised during the community involvement process.
2. The feasibility study (FS) work plan to implement the FS [Arizona Administrative Code R18-16-404(C) (1)(d)]. An FS is conducted to identify a reference remedy and alternative remedies that appear to be capable of achieving established remedial objectives and to evaluate them based on the comparison criteria to select a remedy.

The ECP 24th Street and Grand Canal WQARF site consists of a plume approximately bounded by East Pinchot Avenue to the north, Oak Street to the south, 26th Street to the east and 16th Street to the west. The ECP 32nd Street and Indian School Road WQARF site consists of a plume approximately bounded by Indian School Road to the north, Interstate 10 to the south, 32nd Street to the east, and 1st Street to the west. The contaminants of concern at the sites are tetrachloroethene (PCE), trichloroethene (TCE), cis- and trans-1,2-dichloroethene (DCE), and vinyl chloride.

The final RI reports and FS Work Plans are available for review online at: <http://www.azdeq.gov/node/899>; <http://www.azdeq.gov/node/905>; and at the ADEQ Records Center, 1110 W.
