IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

CENTENNIAL PARK DOMESTIC WATER IMPROVEMENT DISTRICT Has Levels of Gross Alpha above Drinking Water Standards

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Testing results we received on 11-30-2017 show that our system exceeds the standard, or maximum contaminant level (MCL), for Adjusted Gross Alpha. The standard for Adjusted Gross Alpha is 15 picocuries per liter. Adjusted Gross Alpha was found at 22 to 38 picocuries per liter.

What should I do?

- There is nothing you need to do. **You do not need to boil your water** or take other corrective actions. However, if you have specific health concerns, consult your doctor.
- If you have a severely compromised immune system, have an infant, are pregnant, or are elderly, you may be at increased risk and should seek advice from your health care providers about drinking this water.

What does this mean?

This is not an emergency. If it had been, you would have been notified within 24 hours. However, some people who drink water containing Adjusted Gross Alpha in excess of the MCL over many years may have an increased risk of getting cancer.

What is being done?

We are operating the wells with the lowest Gross Alpha detected. We are working with the Arizona Department of Environmental Quality to evaluate the water supply, our current treatment process and are researching options to correct the problem. We anticipate resolving the problem within 90 days.

For more information, please contact Alma Cawley at 928-875-2600 or P.O. Box 1546, Centennial Park, AZ 86021.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Centennial Park Domestic Water Improvement District. State Water System ID#: AZ0408090. Date distributed: 12/4/2017.
