Data Type (select one)	Well	Water Quality	Water Level

Prior to submitting please confirm the following is provided in the form and/or included as an attachment:

- Using version 4.8F or a later version of the guidance and Sample Type look up table/reference table codes.
- Using datum NAD83
- Using NAVD88 or NAVD29 for the reference measuring point elevation. Note the same elevation datum should be used for data being used to calculate groundwater table orientation and slope.
- A map or figure showing well locations for well submittals/or site locations for any sites (attachment required).
- Copies of any professional well construction details/construction figure or well construction/ installation report for any sites (attachment required).
