

Arizona's 2012/14 Not Attaining Waters

The list below contains water bodies that were assessed as Not Attaining (Category 4). Category 4 waters have available data and/or information which indicate that at least one designated use is not being supported but a TMDL is not required because either a TMDL has already been completed (4a) or a plan is in place to attain water quality standards within the next assessment cycle (4b). The year the TMDL was completed is noted next to 4a.

Assessment Unit	Category (year TMDL completed)	Cause(s) of Impairment
